**The philosophy of  
Carbon Rec • 636-3702**

The mission of Carbon Rec is to provide recreation and lifelong learning opportunities to every resident of the county.

We attempt to keep costs as low as possible in all our programs. Thanks to the County Commission and Carbon School District fees are half that of other communities.

People who are involved in wholesome recreational activities are happier and better adjusted than people who are not. We do not give cash prizes nor banquets. Prizes for league champions are modest in nature. Participation is always our emphasis, not winning.

Our goal is to exceed the expectations of every participant in every program. While that is not always possible, that is always our goal. If we come up short, we want to hear from you. While complaining does no one any good, constructive criticism can be very productive and is always welcome.

We will never turn a child away from one of our programs for inability to pay. If you can't afford a program for your child, ask us. We may be able to help.

We are proud to offer the most diverse recreation program in the state. Even so, we are always looking to broaden our offerings. It is our pledge that we will offer anything that fits within our mission and that the community will support. If you want to do something, call us. If you have a talent you would like to share with the community, call us. We are always open to new ideas.
